

# Federal Reserve Decision Analysis

Analyze economic indicators and make interest rate decisions

Inflation Rate

**4.2%**

Above Target

Unemployment

**3.8%**

Near Target

GDP Growth

**2.1%**

Moderate

Current Fed Rate

**5.25%**

Elevated

## Your Interest Rate Decision

**Raise Rates**

+0.25% to fight inflation

**Hold Steady**

Maintain current rates

### **Lower Rates**

-0.25% to boost growth

### **Explain Your Reasoning**

Consider the dual mandate: price stability and maximum employment. What economic indicators influenced your decision? What are the potential risks of your choice?
