

Policy Cost-Benefit Framework

Systematically evaluate proposed policies - Activity 2 (15 minutes)

Choose ONE Policy to Analyze

☐ Raise {{STATE_NAME}} minimum wage to \$15/hour

☐ Make public community college free in {{STATE_NAME}}

☐ Implement statewide carbon tax

☐ Ban single-use plastic bags in {{STATE_NAME}}

☐ Increase gas tax by \$0.10/gallon for infrastructure

☐ Require paid family leave for all employers

Or enter your own policy:

Your policy to analyze...

1 Identify the Problem

What market failure or issue does this policy address?

Describe the problem this policy is trying to solve...

2 Benefits

Stakeholder	How They Benefit	Estimated Value
<input type="text" value="Group 1"/>	<input type="text" value="Benefit description"/>	<input type="text" value="\$ or describe"/>
<input type="text" value="Group 2"/>	<input type="text" value="Benefit description"/>	<input type="text" value="\$ or describe"/>
<input type="text" value="Group 3"/>	<input type="text" value="Benefit description"/>	<input type="text" value="\$ or describe"/>
Society overall	<input type="text" value="Overall benefit"/>	<input type="text" value="\$ or describe"/>

3 Costs

Stakeholder	How They're Harmed	Estimated Cost
<input type="text" value="Group 1"/>	<input type="text" value="Cost/harm description"/>	<input type="text" value="\$ or describe"/>
<input type="text" value="Group 2"/>	<input type="text" value="Cost/harm description"/>	<input type="text" value="\$ or describe"/>
<input type="text" value="Group 3"/>	<input type="text" value="Cost/harm description"/>	<input type="text" value="\$ or describe"/>
Society overall	<input type="text" value="Overall cost"/>	<input type="text" value="\$ or describe"/>

4 Unintended Consequences

Example: Minimum wage increase may lead to automation, reduced hours, or businesses moving to other states.

What might happen that policymakers didn't anticipate?

List potential unintended consequences of this policy...

5 Alternatives

Is there a better way to solve the problem?

Consider market-based solutions, different regulations, or doing nothing...

6 Your Recommendation

Implement

Benefits clearly exceed costs

Modify

Good idea but needs changes

Reject

Costs exceed benefits or better alternatives exist

If modifying, what changes would you make?

Describe modifications...

Reasoning for your recommendation:

Explain why you chose this recommendation...

How confident are you? (1-10)

What information would increase your confidence?

What additional data or evidence would help you make a better decision?
