

# Inflation Impact Calculator

Calculate how inflation affects your purchasing power and savings

## Calculate Purchasing Power Loss

**Current Amount:**

10000

**Annual Inflation Rate (%):**

3.5

**Time Period (Years):**

10

### Results:

Future Purchasing Power

**\$0**

Purchasing Power Lost

**\$0**

Percentage Decrease

**0%**

## **Protection Strategies**

- Invest in assets that grow faster than inflation (stocks, real estate)
- Consider Treasury Inflation-Protected Securities (TIPS)
- Negotiate raises that beat inflation (3-5% annually)
- Avoid keeping large amounts in low-interest savings
- Lock in fixed-rate debts when inflation is high
